## Heavy Duty ePump for xEV Cooling Systems

- Seal-less wet rotor design with class leading efficiency
- Integrated motor controller
- 12, 24 & 48VDC
- ECE Reg.10 Certification
- Rated power = 450W
- >40,000 hours MTBF @ 65°C
- IP6K9K Environmental robustness
- Maximum flow = 23gpm @ 8.5psi static pressure
- Maximum flow = 86lpm @ 58kPA static pressure
- SAE J1939 CAN compatible
- Bus, Truck & Construction vehicles
- Shipping globally now

Contact AVID Technology today for end to end electrification cooling system solutions including ePumps and eFans from 12VDC to 800VDC <http://www.avidtp.com/contact/>
