

7 SIMPLE STEPS

to Successfully Deploy 100% Electric Class 8 Trucks

GATHER YOUR SITE AND TRUCK OPERATING DATA

To spec an appropriate solution, help us understand your facilities and duty cycle

DEVELOP THE BUSINESS CASE

Calculate savings and payback based on real-world data from sites like yours

PURCHASE, INSTALL, AND DEPLOY

Working closely with Orange EV, begin operations seamlessly using our proven, effective launch sequence

PLAN CONTINUED DEPLOYMENTS

Informed by truck telematics data and operational experience, execute broader adoption while enjoying the countless benefits that come with eliminating diesel

SPEC AND QUOTE THE RIGHT-SIZED SOLUTION

Orange EV designs the truck and charging solution to meet site-specific requirements

EDUCATE YOUR TEAM

Get everyone on the same page understanding the operational, economic, and environmental benefits of Orange EV electric trucks

TRAIN YOUR TEAM

With each new site deployment, Orange EV conducts in-person, on-site training

Visit OrangeEV.com to Request a Quote and Total Cost of Ownership (TCO) analysis
