

By 2040, US fleets will include more than 15 million electric vehicles\*, with 40% of their operating costs centered on one component: FUEL.

Yet access to reliable EV charging infrastructure remains a major obstacle to EV adoption and successful fleet operations, all while volatile energy markets present a challenge to electric fuel budgeting.

How will you navigate the complex and costly transition to an electric fleet without disrupting your operations or your bottom line?

\*Bloomberg Research

WELCOME TO

# 360 Charging-as-a-Service (CaaS) from Electrada.

The most innovative, effective, and low-risk way to seamlessly transition your fleet to electric fuel, **Electrada's 360 CaaS reduces fleet fuel cost per mile from day one – guaranteed.**

360 CaaS is a complete electric fuel solution for your fleet.

## 100% Capitalized

We design, own, and manage your electric fuel solution at no cost to you – you pay just for the electric fuel you use.

## Reliable 99% Uptime

We've raised the bar on technical reliability to ensure virtually uninterrupted EV charging capability.

## Guaranteed Performance

Our industry-leading SLA mitigates unreliable equipment risks.

## Predictable Pricing

Our fixed electric fuel price guarantees savings from day one.

Discover how to successfully fuel your electric fleet for the future.

Energizing your Fleet

# How 360 Charging-as-a-Service Works

Backed by BlackRock, the leader in clean energy infrastructure investing, and working hand-in-hand with strategic partners in the automotive, manufacturing, EV charging, energy, and fleet management sectors, Electrada can shift your fleet electrification to the express lane with 360 Charging-as-a-Service, our **complete electric fuel solution**:

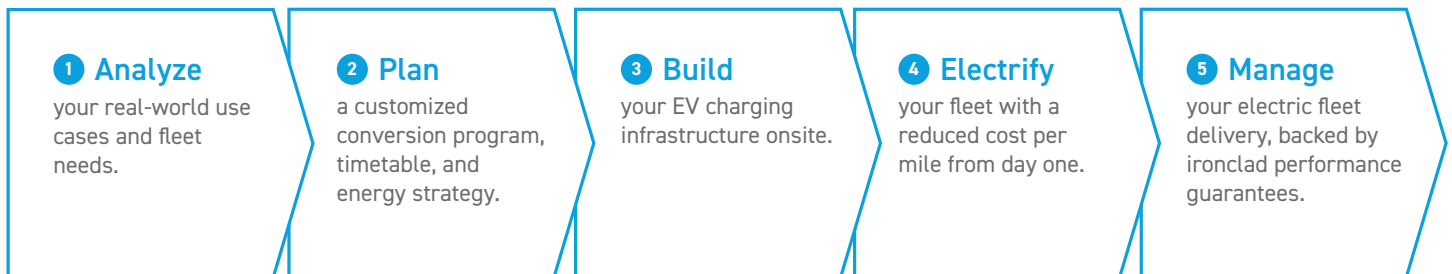

**YOU pay just for the electric fuel you need** – at a predictable price that absorbs energy price volatility.

**WE cover and manage everything else**, including:

- design and construction of your custom electric fuel solution.
- your EV charging infrastructure and equipment costs.
- industry-leading maintenance with optimized performance.

## Electrada's 5 Steps to Energizing Your Fleet

Fleet electrification doesn't have to be costly and complicated.

= fleet electrification simplified + potential lifetime savings of up to 70% vs. DIY.

Regardless of where you are on your fleet electrification journey, let us guide you through a seamless, risk-mitigated electric fuel solution that works best for your fleet.
